Supposed to Be from Sewer Deposits. Men in a Boat Try to Ignite the Gas.

There is an undercurrent of excitement will be empaneled at Tyler on the first Monday in September. The desendant is charged with attempting to use the malls for fraudient purposes by writing the following letter:

Northwestern Stamp Works, St. Paul, Minn.

Chita. Texas, November 15, 1900.—Dear Sits: Please find inclosed \$20, for which glense send us by mall 1200 like the sample. We have a log camp at this fine and need about 1230 more checks to jusy off with, so please send at once to P. O. Chita. You need not register them, Yours very respectfully.

Wm. Cameron & Cc. cause of which is an overcurrent of what

sewer and thence into the bayon. This mult, it is my opinion, settles in the bend between Franklis and Milam streets, and I my thoroughly satisfied it is what gives the to the bubbling.

"I will be very glad and thankful when

rid of the gas and be relieved of the ex-cliement also. Who is a close stadent of times and a keen observer of conditions ted by sewer gas, arising from decay regotation.

land enough to accommodate several dericles. "Under a recent ruling in regard to opecating for oil in the guil, the decision is the same as it was in the Cane Nome good developing, namely, that operations may be confluented without hindrance so long as navigation is not interfered with or observed in any way. In developing the basen oil field there will be no hindrance from this source; that is, there will be none above Milam street, which is the head of navigation. The only question to be considered will be that of water front age rights."
